

Big Drive Needed To Put Local Loan Drive Over Top

Need another \$51,200 to reach quota

Figures at the Victory Loan Office on Wednesday night showed that of quota of \$181,000 for this district, \$139,800 or 77% had been raised. This is made up as follows:

Armada	\$2650
Milo	\$1050
Lomond	\$8650
No. 2 F.I.S.	\$25,800
Vulcan & Dist.	\$93,650

The above is tabulated from canvassers' returns only. All bonds bought through banks have been included in the Vulcan total.

W. D. Allan, chairman of the local asks that if there are any who have not yet been called upon by a canvasser the committee would appreciate their calling at the Victory Loan Office in the Dobbs Hotel building. Due to the rush of the spring work and business many of the canvassers have not been able to fully cover their territory.

The Victory Loan office will be open Saturday night. It is hoped the objective will be reached by that time. If you have already bought a bond see if you can't buy another. We must not fail.

At the request of the National War Finance Committee, and as was done in the Third Victory Loan, the Chartered Banks of Canada will remain open on Saturday, May 15th, from two to four o'clock p.m., for the accommodation of subscribers to the Fourth Victory Loan who find it impossible to meet ordinary banking hours.

Received by wire Wed. afternoon

Tuesdays Loan result was \$64,399,950 making cumulative total of \$885,302,350, as compared with \$661,281,700 in preceding drive. G. W. Spinney, chairman of the National War Finance Committee made urgent appeal particularly in regard to the \$600,000,000 asked from the general canvass and payroll savings. Receipts now under these heads are about \$100,000,000 short.

EASTWAY SOCIAL CLUB

The Social Club held its monthly meeting on May 6th, Mrs. T. Webber and daughter Margaret being joint hostesses. There was a good attendance of members, Mrs. W. Marshall presiding.

The opening song "Mother" was followed by a period of silent prayer for our forces and Victory. The business session included a report of a card party held at the home of Mrs. M. P. Marshall in April. A discussion re the wool afghan being made by members resulted in the decision to collect all blocks for same at the next meeting. Mrs. Johnson turned in a quilt as work done by the Union Jack group. Mrs. F. Wyatt also turned in a quilt made by the Buffalo Hill group. Mrs. Webber, a member of the East group had again finished knitting a sweater. Mrs. W. Marshall offered to be hostess for the next meeting on June 3rd. The guessing contest was won by Mrs. Lewis. Following the closing song the hostess served lunch and so ended another enjoyable afternoon.

VULCAN W. I. ARRANGES CONFERENCE

The May meeting of the Vulcan W.I. was held at the home of Mrs. A. Sales on Friday, 7th, with a very poor turnout of members. Mrs. F. B. Clark the president was in the chair. Business dealt with was a discussion re the holding of the Constituency conference in Vulcan some time in June, the date to be decided on by the Constituency convener, Mrs. G. Viosey of Champion. The president named Mrs. Jack Marshall and Mrs. Lambert representatives to a committee to attend to details pertaining to the conference. It was suggested that the secretary get in touch with the other branches to have them appoint representatives to such a committee. Owing to the poor attendance at the meetings for the past several months and the feeling that each member had so many calls upon her time it was decided to temporarily discontinue our meetings. Mrs. Clark and Mrs. Sales agreed to packing and sending of another ditty bag this month. An interesting report was presented by Mrs. Lambert in the Provincial convention held in Calgary in March. Roll Call was Mother's Day verses. Lunch was served by the hostess assisted by Mrs. Clark.

Prayer for War Prisoners—by the Dean of York, the Very Rev. E. Miller White: "Look, O Lord God, with the eyes of mercy upon all prisoners of war, specially more known and beloved by us, preserve them in bodily health, and in cheerful undaunted spirit, convey to them the support of our love on the wings of thine own, hasten the day of release, through Him who hath made us free eternally—Thy Son, Our Saviour, Jesus Christ. Amen."

M. D. VULCAN COUNCIL POSTPONES DECISION

Due to the comparatively small number of land-owners who had completed their ballots on the question of subscribing to The Vulcan Advocate, the council in their meeting on Tuesday decided to postpone their decision until the June meeting in order that the balance of the ballots could be sent in. It is hoped that all land-owners will register a vote on this subject, whether in favor of the proposal or against it. It is only by casting a ballot that the opinion of the land-owners can be obtained.

Sample copies of The Advocate will continue for the month of May. Ballots will be included in most issues. These should be filled out and sent in to the municipal office at Vulcan by May 29. If the proposal is not clear to you, see your councillor or the municipal secretary. The decision rests entirely with the land-owner.

MUST HAVE AA STICKERS

Many vehicles, both trucks and passenger cars, are reported to be attempting to obtain gasoline without complying with regulations of the Oil Controller, which state that stickers must be pasted on the windshields. The offence has been drawn to the attention of the Enforcement Administration of the Wartime Prices and Trade Board. Prices and Supply Representative, Walter S. Campbell, has issued the following statement: "Filling stations are still supplying gasoline to automobiles without stickers on the windshields. This is contrary to the Oil Controller's Order O.C. 12 and a warning is given to all filling stations and owners of automobiles that this practice must be discontinued immediately."

Mayor W. D. Allan,
Vulcan, Alberta.

May I take this opportunity to express the thanks and deep appreciation of myself and all personnel of No. 2 F.I.S. for the cordial manner in which we were received into your community while we have been stationed here.

It is with a deep feeling of regret that we take leave of the town of Vulcan which has shown us the true meaning of western hospitality. The interest displayed by the citizens of Vulcan in entertaining, accommodating the families and participating in the activities of No. 2 F.I.S., has developed a solid spirit of friendship between the people of Vulcan and the personnel who are leaving.

I am sure the same spirit of co-operation will be shown to the personnel of 19 S.E.T.S.

M. D. Vulcan Council Sets 1943 Tax Rate

U.S. Seeking Wheat From Our Supplies

A forecast of disappearing wheat surpluses in Canada is made in the Financial Post by Robert Wilson, Washington correspondent. He declares that United States is negotiating for Canadian wheat, not for milling purposes but for high protein feed for dairy and livestock.

"U.S. Department of Agriculture most recent survey of the wheat situation contained important news for Canada. This was that the domestic disappearance in 1942-43 was 963 million bushels, which is the largest since 1920.

"Disappearance in 1943-44 may be as much as 1,150 or 1,200 million bushels because of the greater use of wheat for feed, the alcohol production programme, and the emphasis in domestic nutrition on cereals and grains due to high export of concentrated protein food to the U.S. Army overseas and to meet lend-lease requirements.

U.S. imports of feed from Canada could not be entirely divorced from the world wheat picture. Thus the United States, some people argue here would be unwise to completely exhaust its reserves to meet domestic needs and be unable to fulfill export quotas under the international wheat agreement in the immediate postwar period.

"U.S. purchases of Canadian wheat thus serve two purposes—immediate and long range. The changing picture in wheat should serve notice on experts sometimes accustomed to allow their thinking to run too much in a groove that the drawn-out world struggle, devastation and neglect of Europe's fields are transforming once apparently useless surpluses into priceless assets."

Bill of Rights For Prisoners of War

According to those in charge of German prisoners of war in Canada, Canadian soldiers and their next of kin should familiarize themselves with the convention relative to the treatment of prisoners of war, concluded at Geneva, in 1929. This information is important to the knowledge of the soldier that, should he be taken prisoner, he might demand immediate comforts essential to his physical and moral welfare.

This little "bill of rights" for the prisoner is agreed to internationally by all civilized nations and very specifically indicates the treatment to be received. A copy should be obtainable at any public library or from the King's Printer at Ottawa.

Married by Proxy

German soldiers, now resident in Canadian prison camps apparently know these regulations backward and forward, revealing the extent of their training. Consequently, they demand and receive good treatment, strictly to the letter of the Geneva convention. Co-operation has been given them to the extent that many have been married by proxy, to girls in Germany and other enemy countries. All the legal requisites have been supplied, as stipulated under Article 41, of the treaty.

A very helpful service to Canadian prisoners in enemy hands is supplied by the National War Services and the Red Cross, in obtaining information and supplying parcels. Inquiries about Canadian boys now held by the enemy, should be addressed, "Canadian Prisoners of War in Enemy Hands, care of Col. B. W. Clarke, Special Assistant to the Adjutant General, Ottawa.

Taking everything into consideration, the life of the war prisoner can be made fairly tolerable if he understands the rules and rights to which he is entitled and makes use of them.

Must-Get Permit For Stubble Fires

According to Forest and Prairie Fire Prevention Act: "During the closed season (1st day of April to the 1st day of December, inclusive) no person shall set out a fire, except under permit and subject to the conditions prescribed by the regulations." This does not apply to land within the limits of town or village. Permits are free and can be obtained from the R.C.M.P. The regulation is to ensure that the fires will be set and safeguarded by responsible parties.

Will allow 10% Reduction for Early Payment of Taxes

All councillors were present for the regular meeting of the M.D. of Vulcan held at the Municipal office, Vulcan, on Tuesday, May 11th, when the tax rate for 1943 was decided. The budget was considered and the taxes for 1943 were set as follows:

	Mills
Municipal Tax	6
Social Service Tax	3
Bow Valley S.D.	10
Macleod S.D.	6
Foothills S.D.	6
Lethbridge S.D.	17
Vulcan Municipal Hospital Tax	2
High River Municipal Hospital Tax	1

Doctors Tax (on land in former M.D. of Harmony only) 2

It was decided to allow a 10% discount on current taxes if paid on or before August 16th.

Two readings were given a by-law approving the sale of N.E. 7-17-21-W4 to Mrs. Agnes McKay for \$350.00.

A motion was passed protesting against liability for the Highway construction account from the former M.D. of Marquis.

The resignation of C. Rhodes of Champion, effective April 30, 1943, was accepted.

A grant of \$50.00 to the Vulcan Rest Room was approved.

An offer of \$400 for the Stroud grader at Champion by the Union Tractor and Harvester Co., was turned down.

A report of a cash audit of the former M.D. of Harmony by H. E. Howard, C.A., was received and approved. An application for old age pension was approved.

An application for tax consolidation was approved.

A donation of \$100 to the Canadian National Institute for the Blind was approved.

It was decided to have two weed inspectors, F. S. Racher will look after all land on the south side of the road allowance running on the south side of township 17 (Reid Hill road) and H. O. Lundgren will look after all land on the north side of this road.

Wages for weed inspectors will be \$6.00 per day plus mileage at 10c per mile. Inspectors are to look after all known patches of Hoary Cress and sow thistle and to look after all calls from the secretary or any councillor. E. D. Battum of Calgary was appointed auditor for 1943.

The Advocate proposal was postponed until the June meeting to allow time for ballots to be sent in.

Committees were appointed to look after the operation of Grasshopper mixing stations. W. J. Ellis will supervise the Champion station, W. Munro and T. F. Fisher, the Vulcan station and D. McNeven the Brant station. Wages will be the same as other labor, i.e. 60c for foremen and 50c for other labor.

A motion was passed to allow the Village of Champion and the Champion S.D. to use the Municipal office at Champion for one year provided that the Rest Room and Red Cross Rooms are maintained with heat and light and that the Village and School board provide all expenses for heat and light and that the property will remain exempted from assessment and taxation in both village and school district.

A motion was passed to arrange for the purchase of \$5,000 in Victory Bonds, 3,000 of this to be the Vulcan campaign quota and the remainder to be in the Champion quota.

A motion was passed to apply at the bank for a line of credit of credit for this year's operation.

It was decided to arrange to have Fred Watts, of Champion, issue municipal strychnine and to assist in completing applications for Wheat Acreage reduction this year.

OUT OF THE BLACKOUT

Pte. J. P. Bon; 5th Infantry Brigade, March 15:

Just sending you a post card to wish and yours best Easter wishes. And the wishes:

Through all the lands glad sounds of praise rise up in sweet unison. An Easter joy reigns in all hearts for Jesus Christ has risen."

Lac Brown, J.E. (Champion) April 20th:

"Received your most welcome letter today, and am hoping you can make out this card. Had a lovely holiday and everything was tops. Have about nine letters to answer so thought that you would not mind the card. Have something up my sleeve which you will be interested and surprised at. See if you can get around to dropping me a line, and say hello to the folks."

NEWS OF INTEREST

A recent circular on flax production in Alberta has been prepared by the Field Crops Branch and is available free upon request from the Extension Service of the Department of Agriculture, Edmonton.

The cows are hoarding, too. A city dweller was reading a newspaper when he was heard to exclaim: "Even the cows are doing it now!" His wife inquired: "Doing what?" He replied: "Hoarding. Right here in the headlines it says: Light native cow hides 7 cents."

Are Now Making Aviation Gasoline

Gas and Oil Products Ltd., Now Supplying R. C. A. F. Training Centres, First Polymerization Unit in Canada

As a direct result of installing the only "Polymerization" unit in Canada at their refinery in Turner Valley last autumn, Gas and Oil Products Limited, independent Alberta oil producers, refiners and marketers, are now making aviation gasoline for use by the Royal Canadian Air Force at training centres throughout Western Canada. Company officials announced this week.

The first aviation gasoline of Dominion Government standards was run off a few days ago on completion of a desulphurization unit which has been under construction since the "Polymerization" process was installed, and supplies are building up rapidly at company storage points ready for delivery to R.C.A.F. stations, it was stated.

Octane, or anti-knock, standards set by the government for aviation gasoline call for ratings of 87 and 80, both of which the Turner Valley refinery is able to supply through utilization of the new polymerization plant.

The catalytic polymerization process was first put to practical use in the United States only a few years ago, and the first plant in the Dominion was completed at Turner Valley in August, 1942.

"Our Turner Valley Refinery consists of two units, the topping process which refines crude oil, and the cracking procedure used to refine the residue from the topping unit," an official of Gas and Oil Products stated in explaining the new process.

Under the new process, the vapor gases from the cracking unit are compressed and then scrubbed with a solution that removes sulphur compounds found in the natural gasoline. These sulphur-free vapor gases are further compressed and heated to the desired reaction temperature at which time they are passed through a bed of material, known as a "catalyst" which converts them into a high grade gasoline. This polymerized gasoline is then separated from the residual gas and blended with regular refinery motor fuel.

"The polymerized gasoline has an octane blending value of 90, which means that when it is blended with the refinery gasoline, the total blend is a higher quality product than it was formerly possible to produce. It is therefore now possible to produce a higher octane Ethyl gasoline, using less tetra-ethyl lead fluid than formerly, not only saving the lead fluid for aviation gasoline, for which it is urgently needed, but also producing a better quality motor fuel at the same time," he stated.

Increase Acreage Of Flax For 1943

The following statement has been prepared by the Provincial Farm for Victory Committee in explanation of the situation relative to the production of flax in 1943.

An increased acreage of flax should be grown in Alberta in 1943. As a cash crop, last year flax proved very valuable, especially where shipments were grown or could be made up to carload lots. In an area where only a small acreage was grown, farmers experienced some difficulty in delivering the flax to an elevator, since storage for a few hundred bushels tied up space that would store a carload of grain. This same situation will likely prevail again this year.

Early in December of last year, a 67% increase in flax acreage was asked for by the Dominion Government. Later it appeared that some difficulty might be found in marketing as much flax as was produced in 1942, because crushing facilities might not be available. It appears now that flax requirements from this country in 1943 for shipment to the United States and Great Britain, will be such as to necessitate an additional million acres being seeded in Canada.

The Department of Trade and Commerce has already arranged that 1943 grown flax seed will be purchased at a fixed price of \$2.25 per bushel-basis in store Fort William and Port Arthur. This is the same price basis that prevailed for the 1942 crop.

SERMONETTE

The Bible—This book contains the mind of God, the state of man, way of salvation, doom of sinners, and the happiness of believers. Its doctrines are holy, its precepts binding, histories true, and its decisions immutable. Read it to be wise, believe it to be safe, and practice it to be holy. It contains light to direct you, food to support, and comfort to cheer. It is the traveller's guide, pilgrim's staff, pilot's compass, soldier's sword, and Christian's charter. Here Paradise is restored, heaven opened, and the gates of hell disclosed. Christ is its grand object, our good its design and the glory of God its end. Read—it slowly, frequently, and prayerfully. It is a mine of wealth, a paradise of glory and a river of pleasure. It is given you in life, will be opened in judgment and be remembered forever. It involves the highest responsibility, will reward the greatest labour, and will condemn all who trifle with its contents. It will keep you from sin. Sin will keep you from it.—Author Unknown.

THE STORY BEHIND MEAT RATIONING

Food is a weapon of war, and we must share our supplies with those who are fighting to keep the war from our shores. After all special wartime demands are taken care of, only one half of the meat produced in Canada will be available for ordinary domestic consumption at home.

Meat supplies for our Armed Forces must be maintained at all costs.

Canned meat is required in large quantities by the Red Cross to send to our boys who are prisoners of war.

Great Britain has to depend more and more on Canada for supplies to maintain even its present low ration rate of 28 cents worth of meat per person, per week.

Places like Newfoundland and the West Indies, which previously secured their meat from other sources—must now depend to a great extent on Canada.

Since the war started the consumption of meat by civilians has increased in Canada. Great defense projects such as the Alcan Highway and the Shipshaw Power Development have created new and large demands for meat in areas where practically no demand existed before.

The many extra ships of the United Nations now calling at Canadian ports, must be furnished with meat.

RATIONING IS INTELLIGENT FORESIGHT — INTELLIGENT PLANNING

Coupon rationing is the only way of ensuring equal sharing of the meat available for civilian consumption in Canada. Those with lots of money will not get more than their share—and those with less money will be assured of getting their fair share.

Rationing will help prevent local meat shortages such as occurred last year from becoming widespread and continuous throughout the whole Dominion. The incentive for panic-buying which empties butcher shops early in the day, will be eliminated.

THE MEAT RATION WILL BE AMPLE FOR HEALTH AND NUTRITION

Fortunately, our meat production in Canada has increased. So, although only half our production will be available for civilian use, it will mean a reduction of only about 15% to 20% in the average household consumption.

The proposed ration of 2 lbs. (carcass weight) per person, per week, has been approved by the country's leading food and nutrition authorities, as ample for the health and nutrition standards of everyone—regardless of age or occupation.

DATES AND OTHER DETAILS REGARDING MEAT RATIONING—SOON TO BECOME EFFECTIVE IN CANADA—WILL BE ANNOUNCED LATER

Russia vs. Poland

Uneasiness has been roused in allied countries by the clash between Poland and Russia. Anthony Eden has been named as mediator. The trouble is believed to be a result of German propaganda inflaming the Poles with tales of Russian destruction of Polish officers.

It has been claimed by Germans that they discovered near Smolensk the graves of 10,000 Polish officers, and that German investigation had shown they had been killed by Russians whose prisoners they were.

The Polish government in England then issued a statement that about 15,000 Poles held in prison camps by Russia after the occupation of east Poland were missing. Then Molotov charged the Poles with using the German report to get territorial concessions from Russia at the expense of the Soviet Ukraine, Soviet Lithuania and White Russia.

At the outbreak of war Germany had overrun half of Poland when the Russians marched in from the east, the two armies meeting near Warsaw. Then a line of demarcation was agreed to. Then in June 1941 Hitler over-ran Poland driving the Russians back from the line of demarcation.

Germany has now come forward with the story that the Russians killed thousands of Polish prisoners while in occupation of the eastern part of Poland. The Polish government in exile has reacted as Germany hoped and has come forward impetuously with

**Canada's Coast To
Coast Road Ready**

Last Link Between Geraldton and
Heart Now Completed; Open to
Traffic

At long last Canada's coast to coast highway is an accomplished fact. Two years ago the only unfinished portion was a gap in northern Ontario, a 153 mile stretch from Geraldton to Heart. It is now built.

War speeded the completion. Canada was divided from west, by a great wilderness pierced only by two trans-continental railway lines. The Great Lakes shipping service was limited to little more than half a year. All movement of goods and people between east and west depended on the two lines of steel. Any accident of major proportion on the railway lines, such as destruction of a big bridge, might suspend traffic for months. So the highway completion was undertaken as a military expedient.

In the winter of 1940 a huge mechanized army invaded Ontario's northland. Heavily timbered, uninhabited, the highway lay many miles from the railway, which was the base of supplies. A 4 foot blanket of snow added to difficulty, and as spring broke, and frost came out the tote road dissolved in soup. It was arduous labor, but stage by stage the work went forward.

The roadbed is 30 feet wide, and paralleled by ditches screened by rows of trees. Curves and grades are reasonable. The shortage of steel made it necessary to use native timbers for bridgework and these can later be replaced.

And so Canada's Main Street is now completed. It is the final chapter in the story of Confederation. It has eliminated the barrier that separated east and west and its construction is the vindication of Ontario's northland. It opens up by means of by-paths, wonderful hunting grounds, great lakes and rivers, forests of hardwood, and undetermined riches in minerals and waterpower.

Let us wait the day when present restrictions that curtail motoring will be removed and all Canada can traverse Main Street. — Voice of Motordom.

A permanent program to take care of requirements of rationed goods for transient labor on farms is being solved. Supplementary orders for butter, sugar, tea or coffee for transients will be provided where necessary, through farm applications to local ration boards.

VULCAN AND DISTRICT HONOR ROLL

Boys you know—your sons and your neighbor's— 225 strong who left their homes and way of life to don Canada's uniform—to sweat—to train—to drill—for the grimmer routine of war. This these boys have done that we at home, may be spared the destruction of war; that our own district may continue to live the Democratic way.

With us at home, is placed the task of supporting our sons in the front line. We are asked to lend money that Canadian boys may have the weapons to finish the fight.

Each dollar you lend to Canada's Fourth Victory Loan means simply that you place in their hands, weapons to fight—weapons to defend themselves—that you Back the Attack.

Let us then meet our quota—and more.

**Are You Protecting
Your Farm
Equipment By
Proper Lubrication**

Your Farm Equipment represents hundreds of dollars of outlay and, it must last, if it is to give you your money's worth.

To keep it operating efficiently . . . to make it last longer and to keep costs down . . . it must have regular and proper lubrication. There is nothing that will damage machinery so quickly as the lack of proper lubrication.

So, to protect your investment in farm equipment, call on the McColl-Frontenac Representative in your district. He will supply you with the right lubricants for every piece of equipment you own.

**TO PROTECT AND LENGTHEN THE
LIFE OF YOUR FARM EQUIPMENT—USE**

TEXACO MARFAK

NATIONAL SELECTIVE SERVICE

**First Compulsory Employment
Transfer Order**

**NOTICE TO CERTAIN EMPLOYERS
AND EMPLOYEES**

that men in specified lines of civilian employment, in classes already designated under National Selective Service Mobilization Regulations, must report for interview not later than May 19th, 1943, at an Employment and Selective Service Office.

A. Objective: The Order makes available for essential employments the services of men in classes already designated under National Selective Service Mobilization Regulations, who are now employed in specified non-essential employments.

B. EMPLOYMENTS COVERED BY THIS ORDER: Men, of the specified categories, are covered if now employed at: (1) taverns or liquor, wine and beer stores; (2) retail sale of candy, confectionery, tobacco, books, stationery, news; (3) barber shops and beauty parlours; (4) retail and wholesale florists; (5) service stations (gasoline-filling stations); (6) retail sale of motor vehicles or accessories; (7) retail sale of sporting goods or musical instruments; (8) waiter, taxi driver, elevator operator, hotel bell boy, domestic servant; (9) any occupation in or directly associated with entertainment, including but not restricted to theatres, film agencies, motion picture companies, clubs, bowling alleys, pool rooms; (10) any occupation in or directly associated with dyeing, cleaning, and pressing (not including laundry work); baths; guide service; shoe shining.

C. AGE AND MARITAL CLASSES OF MEN COVERED BY THIS ORDER: (a) Every man born in any year from 1917 to 1924 (inclusive) who has reached age 19; (b) every man born from 1902 to 1916 (inclusive), who, at July 15, 1940, was unmarried, or divorced or judicially separated, or a widower without child or children; (c) every man born from 1902 to 1916 (inclusive) who has become a widower since July 15, 1940, and is without child or children now living; (d) every man born from 1902 to 1916

(inclusive) who, since July 15, 1940, has been divorced or judicially separated.

D. Procedure to be Followed: All men as defined above must report to an Employment and Selective Service Office not later than May 19, 1943. Men resident outside a city or town having an Employment and Selective Service Office, too far removed to call personally, may write to the nearest office, and await further directions.

E. OBLIGATIONS OF EMPLOYEES: When directed to accept employment, men referred to in Paragraphs B and C above are required by the Regulations to follow the direction.

F. OBLIGATIONS OF EMPLOYERS: It will be illegal for an employer to retain in his employ after May 19th, 1943, any men referred to in Paragraphs B and C above, unless a special permit has been obtained from Selective Service.

G. Transportation: Provision will be made for transportation of men moved to a new place of residence.

H. Appeals: If objecting to transfer to other employment when directed, a man may enter appeal with a Court of Referees within 7 days.

I. Penalties: Penalties are provided for either employer or employees failing to comply with this Order.

J. Authority: This Order is issued by the Minister of Labour under National Selective Service Civilian Regulations (P.C. 246 of January 19th, 1943, and amending Orders in Council).

Men referred to above must present documents at the employment office, indicating compliance with Mobilization Regulations.
